

SUMMARY

Full Stack Developer with a focus on front-end development using Angular and back-end technologies like .NET Core and Spring Boot. Adept at building scalable, user-friendly web applications and optimizing database management. Proven track record in API integration, RESTful services, and Agile development methodologies. Passionate about continuous learning and delivering high-quality solutions that meet business needs.

EXPERIENCE

- ASSETCUES

Aug 2023 - Present

Pune

Full Stack Developer (Angular & .NET Core)

- Spearheaded the development of front-end applications using Angular, improving user interaction for the Asset Tracking Management system by 30
 - Integrated RESTful APIs using .NET Core, enabling seamless data exchange between systems and reducing API response time by 20
 - Collaborated with cross-functional teams (UI/UX designers, backend developers, and product managers) to ensure cohesive and optimized software experiences, improving efficiency by 15
 - Implemented Agile methodologies to manage sprints and deliver software updates faster, decreasing time-to-market by 25

TECHNICAL SKILLS

- **Programming Languages:** Java-Script, Java, C#, HTML, CSS
- **Database:** MySQL, SQL Server, PostgreSQL
- **Tools and Frameworks:** Angular, .NET Core, Spring-Boot, Visual Studio, Android Studio, Eclipse, Git
- **Additional Skills:** REST APIs, Agile Development, CI/CD, Unit Testing, Version Control (Git), Debugging

PROJECTS

- HTML Converator Library For Angular

July 2024 - Sep 2024

Angular,Material UI

- Developed an HTML Converter Library for Angular applications, converting design elements into HTML code for web integration.
 - Features include support for text formatting, tables, lists, and links, enhancing developer productivity by 40
 - Link: [HTML Converator Library For Angular](#)
- Social Media Website

july 2023 - Aug 2023

Angular,Firebase,Material UI

- Led the development of a social media platform facilitating user communication and content sharing, with a Firebase back-end for real-time data synchronization.
 - Designed and implemented user-friendly interfaces using Angular, reducing bounce rates by 20
 - Managed full project lifecycle: design, testing, and deployment.
 - Link: [Social Media Website](#)
- Visitor Management System

Dec 2021 - july 2022

Angular,Material UI,.NET Core

- Developed a comprehensive Visitor Management System to track and log visitor activity in organizations, enhancing record accuracy by 40
 - Built a responsive front-end interface using Angular, which resulted in a 25
 - Integrated with back-end systems via .NET Core for real-time data tracking and reporting.
